SMALL MIXED CHANGES

STOCKS FLUCTUATED WIDELY, BUT RESUMED NORMAL LEVEL.

Powerful Speculative Cliques Controlled the Day's Operations-Local Business in Healthful Volume.

At New York yesterday money on call was easier at 1%@2% per cent.; last loan,

Prime mercantile paper, 31/2041/4 per cent Sterling exchange was firm, with actual business in bankers' bills at \$4.85@4.37% for demand and \$4.83% for sixty days; posted rates, \$4.84@4.84% and \$4.88; commercial bills, \$4.82%@4.83%.

Silver certificates were 631/2065c; bar silver, 62c; Mexican dollars, 481/2c. At London silver bars further declined to 28%d an

The stock market demonstrated conclusively its professional character yesterday. It was distinctively a traders' market. The trading was done by powerful speculators with ample resources, the transactions were on a very large scale and the price moveroom traders' market, but the method of the same. A scrutiny of the net changes for the day will show that except in a few the whole list was at a level well over cut almost all of the earlier advances, and only the final slight rally saved the list from a larger showing of net losses than is actually the case. Buying by room shorts to cover was largely responsible for the shipments of late have been large, the weather final rally. The selling of the last hou was of a concentrated character, but was by different brokers from those who executed the early buying orders. The deduc tion that large speculative profit taking was being made is not a strained one. The consistent weakness of Missouri Pacific, which fell at one time 81/2 points below Tuesday's high level, left little room for credence in the rumors of a blg Southwestern railway consolidation and gave color to the report that a large short interest in the stock had settled by private agree ment. There was a distinct shifting of speculative interest from the railroads to the industrials, and it was the evidences of realizing in the railroad list under cover of the new strength in the industrials that caused the break. Such early gains as 2% in St. Paul, 2% in Brooklyn Transit, 2% in Baltimore & Ohio, 2% in People's Gas and others nearly as substantial were completely wiped out in the late reaction. The decline from the highest reached 3% in St. Paul, 3% in Brooklyn Transit, 21/2 in Delaware & Hudson, 24 in Baltimore & Ohio and Manhattan and from one to two points in a large number of stocks. The steel stocks reacted from the best in sympathy. but hardened again in the late dealings, the leaders rising to the best at the close on heavy absorption. Pressed Steel Car rose an extreme 614 while the annual meeting was in session and the preferred 3%. All the most important members of the group gained from one to three points, There was no news to account for the rise. but the fact that the disturbances which threaten the steel industry might be settled by the few individuals who control resources in that trade at present naturally makes them available for speculative manipulation. Standard Oil dropped to \$785@791 a shore. The volume of the gold exports for to-morrow's steamer, which rose to \$4,000,000, had rather a chilling effect on the late speculation. Money continued easy in all departments of the

With the exception of reaction in Wabash bonds the bond market was generally firm. Total sales at par value were \$4,800,000. United States threes advanced 1/4 per cent. on the last call. Following are the day's share sales on

trade: It is a pretty monotonous state of affairs which one finds in the Boston wool market at present. There is an entire absence of that spirit and vivacity which one finds in a dull period. To-day the smallest piece seemed large and important, and if they have the least like-lihood of influencing the market favorable are regarded as worthy of notice. A few weeks ago in the week, and there was an absence of the trade was waiting for two events, the opening of the heavy weight season and the opening of the London sales. Two weeks ago the American Woolen Company opened its lines of overcoating and took good orders. The other houses followed with their overcoating lines. But the wool dealers are as yet unable to see any great amount of new business on this account. Now they are waiting for the opening of the other heavy weight lines, the first part of February. A week ago the London sales opened, and at an advance. This, too, has not caused any great amount of business to be transacted. A little better tone, perhaps, but trade waits this time to see how prices hold up in London. Prices are not at all weak and whatever the apathy of the market may be, however small the sales, the trade was waiting for two events, the open-

They Want Indiana Stone Used for the Federal Building.

Dispatches received here yesterday state that Architect Taylor, of the treasury, reclie buildings to increase the appropriation for the local federal building \$500,000. This is more than was asked at the last session. The reason of this request is for more costly material. The department states that if limestone is used the former estimates will be sufficient, but the supervising architect seems to think that granite | Stockers and feeders would be more suited to the style of build-Market steady and unchanged. terial. In regard to the above matter a dispatch received from Bedford last night by the Journal says the stone and business men of that district are considerably wrought up over the reported attempt to substitute granite or marble for Bedford stone. A meeting was held in Bedford last night, the principal business men and quarrymen being present, and strong resolutions were adopted urging senators and representatives from Indiana to use their influence for Bedford stone and calling attention to the fact that this stone is at present the most generally used building stone in the country, 90 per cent, of the stone used in the buildings of New York being from Bedford. It was also stated that five thousand quarrymen of that district expect that the government will use Indiana stone in the erection of the federal building. The people of Bedford are at a loss to understand why any other material should be consid-

Fresh and stale, there were probably over 7,000 in the pens when the market opened this morning, and although this ordinarily would not be considered a liberal supply the indications early were that there would be quite enough to meet the requirements of the demand. Buyers were, from the start, offering lower prices, and with salesmen a ltitle reluctant in making concessions the opening market was very dull. Later, howeve at about 5c lower prices than yesterday's average, packers were fairly liberal buyers, and with some inquiry from shippers the trading was reasonably active. Horses.

UNION STOCKYARDS, INDIANAPOLIS, Jan. 23.-About 200 head of horses were offered by Blair, Baker & Walter in their regular auction sale against 475 last Wednesday. There was no perceptible change in the quality compared with the average for several weeks, but it is possible there were fewer good animals than a week ago. to cause any active competition, and in fact the auction in the forenoon was characterized by sluggish bidding and it was difficult to negotiate sales at steady prices. In the afternoon there was a little more animation in the trade, but sales were at no time fully up to the expectations of owners. The offerings were largely medium to good drivers and chunks, with the usual scarcity of high class drafters and harness horses that precedes a special sale week.
